MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE.

WEEK ENDED SATURDAY, 3rd DECEMBER 1960.

The State remained free from Plague during the week as in the previous week. Comparative figures for the corresponding week in 1958 and 1959 were 2 attacks with 1 death and nil attack with nil death respectively.

A total of 28 attacks with 5 deaths from Smallpox were reported from the City of Bangalore Corporation and the towns of Hubli and Devanahally and from the taluks of Bagepally, Kumta, Kanakapura, Mandya, Nagamangala, Sandur and Udipi.

The State remained free from Cholera during the week.

A total of 1 attack with nil death from Kyasanur Forest Disease was reported from Shimoga District.

The State remained free from Yellow Fever, Relapsing Fever, Infectious Hepatitis and Influenza in epidemic form.

The total mortality for Bangalore Corporation amounted to 300 (101 in hospitals) for the week giving a calculated death rate of 12·2 (8·1 excluding hospital deaths) per mille of population (mid-year estimated) as against 10·5 (7·8 excluding hospital deaths) for the corresponding period of last year. Classified according to causes of deaths were 39 due to Dysentery and Diarrhœa, 1 due to Smallpox, 5 due to Consumption and 255 due to all Other Causes.

The total mortality for Mysore City was 25 (8 in hospitals) for the week representing a calculated death rate of 3·3 (2·3 excluding hospital deaths) per mille of population (mid-year estimated) as against 10·1 (7·7 excluding hospital deaths) for the corresponding period of last year. Classified according to causes of deaths were 4 due to Other Fevers, 1 due to Dysentery and Diarrhœa, and 19 due to all Other Causes and 1 due to Consumption.

There were 32 deaths (8 in hospitals) for the week from all causes in Kolar Gold Fields City equivalent to a calculated death rate of 8·8 (6·6 excluding hospital deaths) per mille of population (mid-year estimated) as against 5·9 (4·2 excluding hospital deaths) for the corresponding period of last year. Classified according to causes of deaths were 9 due to Consumption and 20 due to All Other Causes and 1 due to other Fever, 2 due to Dysentery and Diarrhoea.

The total mortality for Belgaum City was 15 (1 in hospitals) for the week representing a calculated death rate of 6·6 (6·1 excluding hospital deaths) per mille of population (mid-year estimated) as against 18·2 (11.4 excluding hospital deaths) for the corresponding period of last year. Classified according to causes of deaths were 1 due to Dysentery and Diarrhoea, 1 due to Typhod, and 13 due to all Other Causes.

The total mortality for Mangalore City was 19 (11 in hospitals) for the week representing death rate of 5·9 (2·5 excluding hospital deaths) per mille of population (mid-year estimated) as against 14·7 (12.7 excluding hospital deaths) for the corresponding period of last year. Classified according to causes of deaths were 1 due to Typhoid 2 due to Consumption and 16 due to all Other Causes.
